|---|--|---|---|
| Athletic Scholarship Report | Used to analyze the effectiveness of athletic scholarship dollars and plan next year. (SS) | Х | |
| Automated Student and Adult Learner Follow-Up System (ASALFS) THECB CBM 116 follow-up | The ASALFS also commonly referred to as the CBM 116 Follow-up allows institutions to provide data on the placement of graduates that have not been located during matching with higher education enrollment and employment records. The CBM 116 data is combined with data on located graduates to determine the graduate placement rate for an institution. (IE) | Х | |
| CAHIIM Annual Program Assessment Report | The Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM) requires an annual assessment for accreditation of the Health Information Management program. This assessment outlines class statistics, changes in curriculum and/or personnel, etc. (SM) | X | |
| Capstone Experiences | The capstone experience is one method by which CTE programs may verify entry-level workplace competencies. The capstone is a learning experience resulting in a consolidation of a student's educational experience and certified mastery of entry-level workplace competencies. The capstone experience must occur during the last semester of the student's educational program. Methods of providing a capstone experience include a final external learning experience that allows a student to apply broad knowledge of the profession; a comprehensive, discipline- specific examination prepared by the faculty of the program and administered at the conclusion of the program; a course involving simulation of the workplace, case studies, portfolios, and employment scenarios; and/or a discipline-specific special project, involving the integration of various teams of students performing activities to simulate the situations which may occur in the workplace.(SW) Also known as Verification of Workplace Competencies. | | |
| CE Course Evaluations | CE (Continuing Education) course evaluations are given to the students at the end of their course to evaluate the content, satisfaction level, instructor, whether learning outcomes were met, were training needs met, and whether the quality was satisfactory. These are used to evaluate the instructor and to implement any changes in the course that are necessary. (SM) | | Х |
| CE Reports (Continuing Education Reports) | Data compiled from every course offered within an academic year pertaining but not limited to ethnicity of students, contact hours/program, headcount/program, location of classes, and variances within offerings from | X | Х |

| instrument | A tool used to collect data. | | |
| IPEDS | Integrated Postsecondary Education Data System (IPEDS) The Integrated Postsecondary Education Data System (IPEDS), conducted by the NCES, began in 1986 and involves annual institution-level data collections. All postsecondary institutions that have a Program Participation Agreement with the Office of Postsecondary Education (OPE), U.S. Department of Education (throughout IPEDS referred to as "Title IV") are required to report data using a web-based data collection system. IPEDS currently consists of the following components: Institutional Characteristics (IC); 12-month Enrollment (E12); Completions (C); Human Resources (HR) composed of Employees by Assigned Position (EAP), Fall Staff (S), and Salaries (SA); Fall Enrollment (EF); Graduation Rates (GRS); Finance (F); and Student Financial Aid (SFA). (TH) | | |
| IPEDS 12-Month Enrollment Report | Institutions report an unduplicated head count for the total number of students by gender, race/ethnicity, and level (undergraduate, graduate, first-professional) enrolled throughout the reporting period. Students included are those enrolled in any courses leading to a degree or other formal award, as well as those enrolled in courses that are part of a terminal vocational or occupational program. | X | |

| | Institutions also report the total instructional activity for | | |
|-----------------------|--|---|--------|
| | the same 12-month period for both undergraduate and | | |
| | graduate programs. Instructional activity data are | | |
| | reported in units of contact hours (sometimes referred to | | |
| | as clock hours) or credit hours. (TH) | | |
| IDEDS Completions | | х | |
| IPEDS Completions | This annual component of IPEDS collects number of | ^ | |
| Report | degrees and other formal awards (certificates) conferred. | | |
| | These data are reported by level (associate's, bachelor's, | | |
| | master's, doctor's, and first-professional), as well as by | | |
| | length of program for some. Both are reported by | | |
| | race/ethnicity and gender of recipient, and the field of | | |
| | study, using the Classification of Instructional Programs | | |
| | (CIP) code. Institutions report all degrees and other | | |
| | awards conferred during an entire academic year, from | | |
| | July 1 of one calendar year through June 30 of the | | |
| | | | |
| IPEDS Fall Enrollment | following year. (TH) | v | ┟────┤ |
| | This annual component of IPEDS collects data on the | Х | |
| Report | number of students enrolled in the fall at postsecondary | | |
| | institutions. Students reported are those enrolled in | | |
| | courses creditable toward a degree or other formal award; | | |
| | students enrolled in courses that are part of a vocational | | |
| | or occupational program, including those enrolled in off- | | |
| | campus or extension centers; and high school students | | |
| | taking regular college courses for credit. Institutions report | | |
| | annually the number of full- and part-time students, by | | |
| | gender, race/ethnicity, and level (undergraduate, | | |
| | graduate, first-professional); the total number of | | |
| | | | |
| | undergraduate entering students (first-time, full-and part- | | |
| | time students, transfer-ins, and non-degree students); and | | |
| | retention rates. In even-numbered years, data are | | |
| | collected for state of residence of first-time students and | | |
| | for the number of those students who graduated from | | |
| | high school or received high school equivalent certificates | | |
| | in the past 12 months. (TH) | | |
| IPEDS Finance Report | This annual component of IPEDS collects data that | Х | |
| | describe the financial condition of postsecondary | | |
| | education in the nation. These data are used to monitor | | |
| | changes in postsecondary education finance and to | | |
| | promote research involving institutional financial | | |
| | | | |
| | resources and expenditures. Specific data elements | | |
| | include such items as institutional revenues by source | | |
| | (e.g., tuition and fees, government, private gifts); | | |
| | institutional expenditures by function (e.g., instruction, | | |
| | research, plant maintenance and operation); physical | | |
| | plant assets and indebtedness; and endowment | | |
| | investments. (TH) | | |
| IPEDS Graduation | This annual component of IPEDS was added in 1997 to | Х | |
| | | 1 | 1 |

| Rates | help institutions satisfy the requirements of the Student Right-to-Know legislation. Data are collected on the number of students entering the institution as full-time, first-time, degree/certificate-seeking undergraduate students in a particular year (cohort), by race/ethnicity and gender; the number completing their program within 150 percent of normal time to completion; the number that transfer to other institutions if transfer is part of the institution's mission. (TH) | | |
|--|---|---|--|
| IPEDS Human Resources Report | This component of IPEDS was formed in 2006 by combining three previously separate components: Employees by Assigned Position (EAP), Fall Staff (S), and Salaries (SA). This was done to avoid (or at least reduce) conflicting data which had occurred when collected separately. The information collected has remained basically the same, and the frequency of collection remains the same, i.e., the fall staff data is collected biennially in odd-numbered years. (TH) | X | |
| IPEDS Institutional Characteristics Report | This annual component is the core of the IPEDS system and is required of all currently operating Title IV postsecondary institutions in the United States and other areas. As the control file for the entire IPEDS system, IC constitutes the sampling frame for all other NCES surveys of postsecondary institutions. It also helps determine the specific IPEDS screens that are shown to each institution. This component collects the basic institutional data that are necessary to sort and analyze not only the IC DATA, but also all other IPEDS DATAs. IC data are collected for the academic year, which generally extends from September of one calendar year to June of the following year. Specific data elements currently collected for each institution include: institution name, address, telephone number, control or affiliation, calendar system, levels of degrees and awards offered, types of programs, application information, student services, and accreditation. The IC component also collects pricing information including tuition and required fees, room and board charges, books and supplies and other expenses for release on College Navigator. (TH) | X | |
| IPEDS Key holder | The person designated by an official institutional representative to have in their possession the necessary UserID and password to gain access to the Integrated Postsecondary Education Data System (IPEDS) data collection system to complete the survey. The key holder is responsible for entering data and locking the site by each survey completion date. (TH) | X | |

| IPEDS Student Financial Aid Report | This annual component of IPEDS began with a pilot test in 1999, and collected both institution price and student financial aid data. The 2000-01 data collection included questions regarding the total number of full-time first- time degree/certificate-students receiving financial assistance for the previous year, and the number of them who received financial assistance by type of aid and the average amount. The tuition and other price items are now part of the Institutional Characteristics (IC) component; the student financial aid questions remain part of SFA. (TH) | X | |
|--|--|---|---|
| Lab Evaluation Report | An evaluation conducted annually to ensure the adequacy of the facility, the equipment, and the supplies. A tool to make recommendations for improvement during the ensuing budget and planning year. (TH) | Х | |
| LEAP, SLEAP, State Work-Study and Nursing – THECB Year End Report | The Leveraging Educational Assistance Partnership (LEAP) program was established to furnish assistance to full-time students with financial need who are residents of Texas attending institutions of higher education in Texas. The Special Leveraging Educational Assistance Partnership (SLEAP) program assists states in providing grants, scholarships, and community service work-study assistance to eligible postsecondary education students who demonstrate financial need. , Work-Study and Nursing – THECB Year End Report requirements shall include reports specific to allocation and reallocation of grant funds (including the Financial Aid Database Report) as well as progress and year-end reports of program activities. (TH) | X | |
| Legislative Budget Board Performance Measures Report | Also known as the LBB Report requires institutions to report on their performance using approved performance measurers. (IE) | Х | |
